

Research Transparency and Reproducibility Workshop

August 18-19, 2017 | Bergen, Norway | NHH

To address growing need for improved norms and practices of social science research, [BITSS](#) is partnering with the Norwegian School of Economics ([NHH](#)) to deliver a workshop on research transparency and reproducibility. This workshop will be led by [Dr. Eva Vivalt](#) (Australian National University) and will target 40-50 students, faculty, and researchers to train them on the challenges facing the credibility of social science research, as well as current known best practices for more transparent, reproducible research. The workshop will engage the audience with hands-on workflow-related activities and software.

All workshop materials, including software installation instructions, can be found on Github: <https://github.com/vivalt/Bergen2017>

August 18

09:00	Introductions and Pre-Event Survey
09:30	Overview of Research Transparency and Reproducibility
10:45	Tea Break
11:00	Registration and Pre-Analysis Plans: Introduction, Hands-on with AEA registry
12:30	Lunch
13:30	Coding Reproducibility: Lessons Learned
14:45	Data De-Identification and Sharing
15:45	Tea Break
16:00	Replication and Data Sharing Activity

August 19

09:00	Dynamic Documents using Stata and R (parallel sessions)
10:30	Tea Break
10:45	OSF, Version Control with Git + Github I
12:30	Lunch
13:15	Version Control with Git + Github II

The Workshop will end by 14:45 on August 19 to facilitate student departure times.
