The Berkeley Initiative for Transparency in the Social Sciences (BITSS) is an active network of researchers and institutions committed to strengthening scientific integrity in economics, political science, psychology, and related disciplines. Central to BITSS efforts is the identification and dissemination of useful tools and strategies for improving transparency, including the use of study registries, pre-analysis plans, data sharing, and replications. Visit [bitss.org](http://bitss.org) and [@UCBITSS](https://twitter.com/UCBITSS) to learn more, find useful tools and resources, and contribute to the discussion.

The 2016 BITSS Annual Meeting is supported in part by the John Templeton Foundation, the Laura and John Arnold Foundation, the William and Flora Hewlett Foundation, and an anonymous donor.
