The Berkeley Initiative for Transparency in the Social Sciences (BITSS) is an active network of researchers and institutions committed to strengthening scientific integrity in economics, political science, psychology, and related disciplines. Central to BITSS efforts is the identification and dissemination of useful tools and strategies for improving transparency, including the use of study registries, pre-analysis plans, data sharing, and replications. Visit bitss.org and @UCBITSS to learn more, find useful tools and resources, and contribute to the discussion by adding your voice.
