NORMS

Communality

Open sharing

Universalism

Evaluate research on own merit

Disinterestedness

Motivated by knowledge and discovery

Organized skepticism

Consider all new evidence, even
against one's prior work

Quality

COUNTERNORMS

Secrecy

Closed

Particularism

Evaluate research by reputation

Self interestedness

Treat science as a competition

Organized dogmatism

Invest career promoting one's own
theories, findings

Quantity

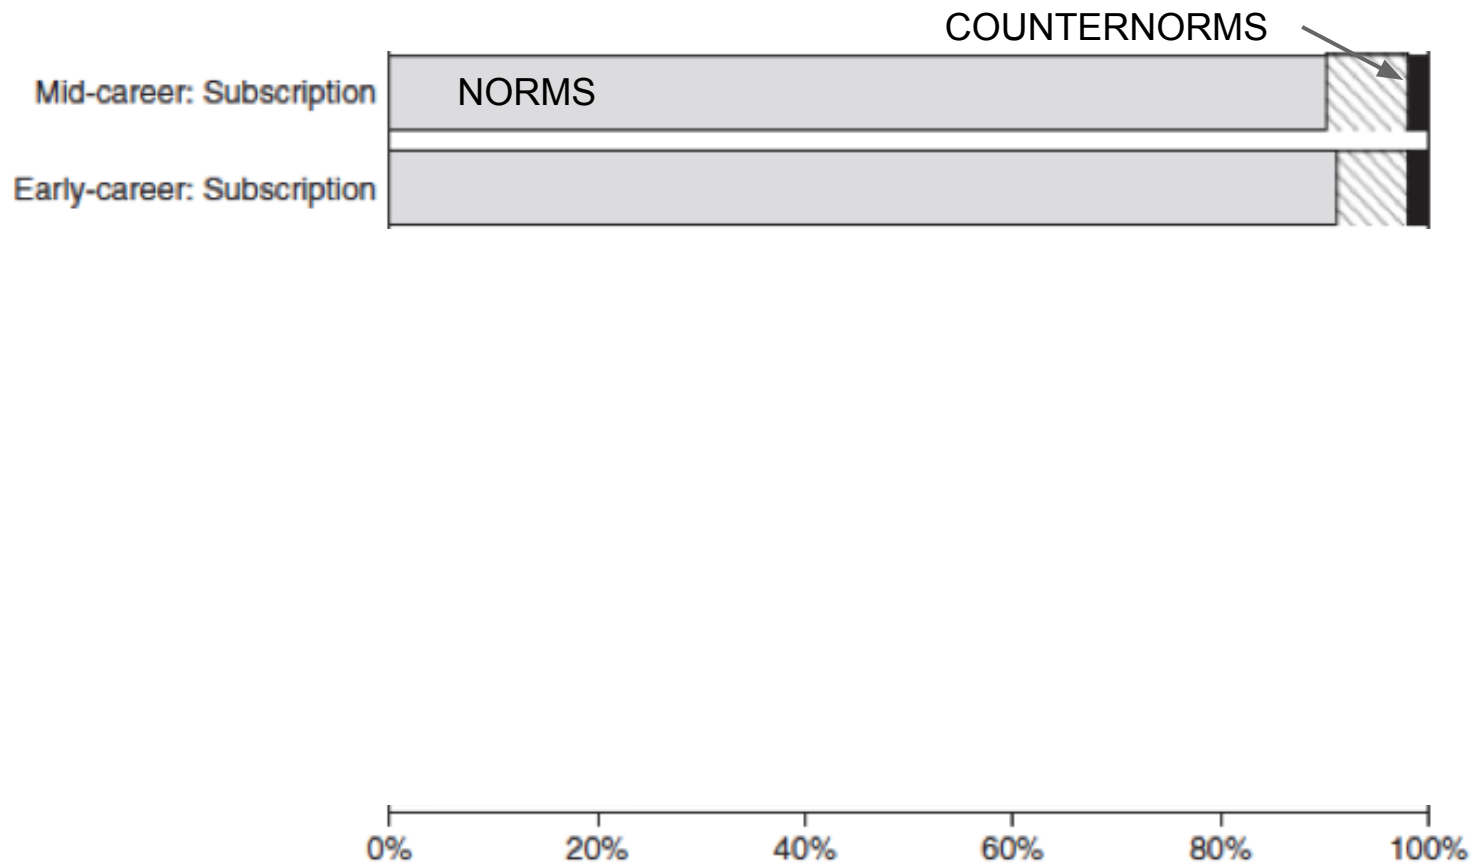

FIG. 3. Norm versus Counternorm Scores: Percent with Norm > Counternorm (dotted), Norm = Counternorm (striped), Norm < Counternorm (solid).

Incentives

Incentives for individual success are focused on getting it published, not getting it right.

Change the incentives.

Center for Open Science

COMMUNITY

INFRASTRUCTURE

METASCIENCE

Community

- Foster discussion of transparency and reproducibility issues
- Support community efforts to increase openness in the sciences
- Promote the establishment of reporting standards

Center for Open Science

COMMUNITY

INFRASTRUCTURE

METASCIENCE

Infrastructure

- Tools for scientists that increase transparency and access to resources
- Connect services and allow users to easily organize and share their work

Center for Open Science

COMMUNITY

INFRASTRUCTURE

METASCIENCE

Metascience

- How are scientists currently behaving?
- Do transparency and replication have a positive impact on research?
- Reproducibility Project: Psychology and Cancer Biology; Many Labs 1, 2, and 3; Archival Project; CREP

Open your laptop!

OSF

Nudge the incentive system

- Support pre-registration
- Create alternative means of measuring impact
- Enable sharing of materials

Facilitate good research

- Organize files
- Allow collaboration

Project management with collaborators, project sharing with the public

The Open Science Framework (OSF) supports the entire research lifecycle: planning, execution, reporting, archiving, and discovery.

A sign-up form for the Open Science Framework. It is a light blue rectangular box containing four white input fields stacked vertically: 'Full Name', 'Contact Email', 'Confirm Email', and 'Password'. At the bottom right of the box is a red button with the text 'Sign up' in white.

What can the OSF do for you?

B *I* | [Icons]

From the abstract for "The nonverbal expression of pride: Evidence for cross-cultural recognition": The present research tests whether recognition for the nonverbal expression of pride generalizes across cultures. Study 1 provided the first evidence for cross-cultural recognition of pride, demonstrating that the expression generalizes across Italy and the United States. Study 2 found that the pride expression generalizes beyond Western cultures; individuals from a preliterate, highly isolated tribe in Burkina Faso, West Africa, reliably recognized pride, regardless of whether it was displayed by African or American targets. These Burkinabe participants were unlikely to have learned the pride expression through cross-cultural transmission, so their recognition suggests that pride may be a human universal. Studies 3 and 4 used drawn figures to systematically manipulate the ethnicity and gender of targets showing the expression, and demonstrated that pride recognition generalizes across male and female targets of African, Asian, and Caucasian descent. Discussion focuses on the implications of the findings for the universality of the pride expression.

Materials collected and IRB application underway. If any researchers are interested in getting involved in the replication or helping with the IRB process, email Johanna at johanna@cos.io. |

From the abstract for "The nonverbal expression of pride: Evidence for cross-cultural recognition": The present research tests whether recognition for the nonverbal expression of pride generalizes across cultures. Study 1 provided the first evidence for cross-cultural recognition of pride, demonstrating that the expression generalizes across Italy and the United States. Study 2 found that the pride expression generalizes beyond Western cultures; individuals from a preliterate...

Register

Registration creates a frozen version of the project that can never be edited or deleted. You can register your project by selecting a registration form, entering information about your project, and then confirming. You will be able to continue editing the original project, however, and the frozen version with time stamps will always be linked to the original.

- Registrations are private by default. You can make your registration public after completing the registration process.
- Before initiating a registration, make sure that the project is in the state that you wish to freeze. Consider turning links into forks.
- Start by selecting a registration form from the list below. You can hit your browser's back button if the selected form is not appropriate for your use.

Please select a registration form to initiate registration

Logs

The screenshot shows the Open Science Framework (OSF) web interface. The browser address bar displays <https://osf.io/qthf2/>. The page header includes the OSF logo, navigation links (Dashboard, Explore, Help), a search bar, and the user's email (jlc7tu@virginia.edu). The main content area is divided into two panels. The left panel lists 20 image files, including 'FemaleCaucAngry.jpg', 'FemaleAsianContempt.jpg', 'MaleAfDisgust.jpg', 'FemaleAsianAfraid.jpg', 'MaleAfFear.jpg', 'MaleCaucPride.jpg', 'MaleAsianHappy.jpg', 'MaleAfAngry.jpg', 'MaleAsianContempt.jpg', 'MaleAfHappy.jpg', 'FemaleAfAngry.jpg', 'FemaleAfPride2.jpg', 'FemaleAfSurprised.jpg', 'FemaleAfDisgust.jpg', 'FemaleAsianSurprised.jpg', 'MaleAfSad.jpg', 'MaleAsianFear.jpg', 'MaleCaucSurprised.jpg', 'FemaleAsianHappy.jpg', 'FemaleCaucPride2.jpg', 'FemaleAfContempt.jpg', and 'FemaleAfHappy.jpg'. The right panel features a 'Materials' section with a progress bar indicating 54 contributions by 'Chopik & Cohoon'. Below this is a section titled 'add a tag'. At the bottom of the right panel is a yellow box containing a log of actions, with a 'more' link at the bottom.

Commenting

The screenshot displays the Open Science Framework (OSF) interface in a web browser. The browser's address bar shows the URL <https://osf.io/qthf2/>. The OSF header includes navigation links for Dashboard, Explore, Help, and a search bar. The user's email, jlc7tu@virginia.edu, is visible in the top right.

The main content area features the project title "Replication of Tracy and Robins (2008, JPSP, Exp 4)". Below the title, it lists contributors William J. Chopik and Johanna Cohoon, along with the creation and last update dates (6/2/2014 3:44 PM and 6/3/2014 10:51 AM). A description states: "Description: Part of the Reproducibility Project: Psychology; independent replication of Tracy & Robins 2008 study 'The nonverbal expression of pride: Evidence for cross-cultural recognition'".

A navigation bar below the description includes links for Dashboard, Files, Wiki, Statistics, Registrations, Forks, Contributors, and Settings. The "Wiki" section is active, displaying an abstract snippet: "From the abstract for 'The nonverbal expression of pride: Evidence for cross-cultural recognition': The present research tests whether recognition for the nonverbal expression of pride generalizes across cultures. Study 1 provided the first evidence for cross-cultural recognition of pride, demonstrating that the expression generalizes across Italy and the United States. Study 2 found that the pride expression generalizes beyond Western cultures; individuals from a preliterate..."

A "Files" section is also visible, showing a search bar and a list of files: "Project: Replication of Tracy and Robins (2008, JPSP, Exp 4)", "Component: Private resources" (containing emailtotracy.txt), "Private Component", "Component: Materials" (containing MaleCaucAngry.jpg and MaleAsianSurprised.jpg).

On the right side, a "Components" section lists "Private resources" by Chopik & Cohoon (8 contributions) and a "Private Component". Below this, a "Materials" section lists "Chopik & Cohoon".

A yellow sidebar on the right is titled "Replication of Tracy and Robins (2008, JPSP, Exp 4) Discussion". It contains a comment form with the placeholder text "Add a comment". Below the form, a comment by Johanna Cohoon is shown, dated "a few seconds ago". The comment text reads: "We invite comments from other RPP members, the original authors, and anyone with feedback on this replication!".

Tags

The screenshot shows the Open Science Framework (OSF) website interface. The browser address bar displays <https://osf.io/qthf2/>. The page header includes navigation links: Open Science Framework, Dashboard, Explore, and Help, along with a search bar and a user profile for jlc7tu@virginia.edu.
