The Berkeley Initiative for Transparency in the Social Sciences (BITSS) is an active network of researchers and institutions committed to strengthening scientific integrity in economics, political science, psychology, and related disciplines. Central to BITSS's efforts is the identification and dissemination of useful tools and strategies for improving transparency, including the use of study registries, pre-analysis plans, data sharing, and replications. Visit bitss.org and follow us [@UCBITSS](https://twitter.com/UCBITSS) to learn more, find useful tools and resources, and take part in the discussion. This event is supported by the Sloan Foundation and an anonymous donor.
